Thank you for your order! >>>> New DVD Just Released!!! "SCIENCE TESTS FAITH"

Hear the story unfold as Science finds: Blood & Flesh, Human DNA, Heart Muscle and White Blood Cells... all in a Bleeding Consecrated Host as the Truth of the Eucharist is revealed by Science! Yet science cannot produce a detailed DNA profile from not only the Host but also from a bleeding statue of Christ. Ron Tesoriero, attorney and documentary producer, and Mike Willesse, senior Australian TV Investigative Journalist, build a powerful fact-based case for belief in the Eucharist. The DVD includes their September 2009 presentation and exclusive interview covering the scientific results of these Catholic Church commissioned investigations into a bleeding statue of Christ and a recent Eucharistic miracle. The DNA and forensic studies present a strong testimony for a renewed love and belief in the true presence of Jesus in this Most Holy Sacrament.
